THE VERTICAL FARM

Restaurant LOCALS grows its own vegetables and herbs in its Vertical Farm.
This greenhouse was realized in collaboration with Vegger on the 1st floor of Hotel Haarhuis.

Vertical Farming is growing food in stacked cultivation layers, in a complete controlled environment.
Energy, light and water are controlled to be as efficient and effective as possible, without external influences.

The crops grow entirely on water, without the use of soil.
In our greenhouse you will find sprouts (cresses) and herbs such as different types of basil, East Indian cress, mustard cress, oyster leaf, mint and coriander cress.

An unique way of growing vegetables and herbs in Arnhem!
